

FONDATION legrand

PRESS RELEASE

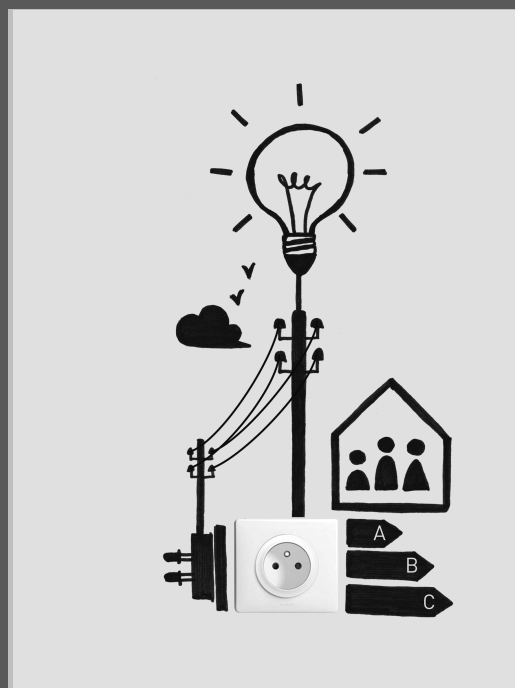

Limoges, March 13, 2014

CREATION OF THE LEGRAND FOUNDATION

The first foundation under the aegis of Fondation Agir Contre l'Exclusion (FACE), a registered non-profit organisation for action against exclusion

Limoges (France), March 13, 2014 – The launch was announced today of the Legrand Foundation, a Legrand Group initiative sheltered by Fondation Agir Contre l'Exclusion (FACE), a registered non-profit organisation. The aim of the Legrand Foundation is to provide a springboard for victims of exclusion, disadvantage or discrimination, by combating exclusion related to a loss of independence and electricity poverty, and promoting education and employment in the electrical sector.

To date, the Foundation is already committed to several initiatives, such as the 'Growing old happily at home' project, a pilot scheme intended to support social housing authorities in the field of loss of independence, or the 'Impact' programme, designed to support social entrepreneurs with innovative projects in the field of energy efficiency.
